25X1A 5.

Comment:

ponent units of the Fourth Gds Hecz Army (Cadre), i.e. 6th and 7th Gds Hecz Divs (Cadre) and erm; Hg troops. Therefore component units of the two divisions and army Hg troops should have practiced in the area south of JITTHELIGH (SETHAUSEN?) late in June 1949. However, no such information was supplied by other sources. On the contrary, it isknown that, at the name time (late June 1949), tank troops of the 6th Gds Hecz Div (Cadre) held exercises in the THIPHIR area and troops of the 7th Gds Hecz Div (Cadre) held exercises in the LIEBLEGH area.

b. The above report is forwarded with reserve. Should the report be confirmed, it could be inferred that, predominantly, motorized units of the Fourth Sds Heez Army (Caure) (i.c. units on wheels exclusively) participated in the exercises in the area sout. of WITTALEAGE late in June 1949, while the tank units proper practiced in the training areas in eastern Brandenburg (including the HEMPLIE and HITBLECE areas) at the same time.
